Program

Time	TITLE	SPEAKER
12:00	DMS 2021 General Assembly	
12:45	Short break	
13:00	Introduction to the Symposium: AMR in urban residual streams: the user-to-environment conduit	Barth F. Smets, Professor, DTU
13.05	The global perspective on AMR – inferences from AMR sewage surveillance	Frank Aarestrup, Professor, DTU
13.25	Q&A	
13.30	Mapping the AMR problem in residual waters: Towards an understanding of AMR ecology.	Arnaud Dechesne, Senior Researcher, DTU
13.50	Q&A	
13.55	Biological and genetic agents that drive AMR fate in urban residual waters: Insights from metagenomic and mobilomic studies	Joseph Nesme, Assistant Professor, KU
14.15	Q&A	
14.20	End of event
