

# Metabolism in Action

**From genome to function**

**The goal of this meeting is to create an inspiring, international, and open environment to explore the influence of molecular and tissue-specific regulation of metabolism**

## Topics

- Cell type heterogeneity in metabolic health and disease
- Genomics of metabolic disease
- Incretins, hormones and metabolic homeostasis
- Neurobiology of energy metabolism
- Exercise biology and tissue cross-talk
- Circadian biology
- Influence of the microbiome and infection on metabolic health
- Adipose plasticity and communication

## Speakers

- Alan Saltiel
- Bruce Spiegelman
- Claudia Langenberg
- Emma Ahlqvist
- Evan D. Rosen
- Fiona Gribble
- Gad Asher
- John Speakman
- Katrien De Bock
- Kristina Schoonjans
- Lori Sussel
- Madan Babu
- Marc Donath
- Marcelo Nobrega
- Martin Myers
- Melina Claussnitzer
- Michael N. Hall
- Michael W. Schwartz
- Rana Gupta
- Thomas A. Rando

## Organizers

- The Novo Nordisk Foundation Center for Basic Metabolic Research**
- Camilla Schéele
  - Juleen R. Zierath
  - Kei Sakamoto
  - Romain Barrès
  - Ruth Loos
  - Zach Gerhart-Hines
