

Danmarks Mikrobiologiske Selskab

The Danish Microbiological Society · Since 1958

DMS Travel Stipends 2024

The Danish Microbiological Society supports BSc and MSc student at Danish universities for travel as part of their studies.

Travel stipends are given for:

- Travel for working in another laboratory to learn new techniques of relevance to the project.
- Participation in courses outside Denmark, of relevance to the project.
- Field work that is part of the project.

Please note that the following is not supported:

- Participation in conferences and workshops.
- Exchanges to foreign universities for following courses.

You can apply for travel expenses, costs of living while traveling and bench fees at foreign institutions.

The maximum amount that can be applied for is 5000 DKK

The maximum 2 pages long application should include:

- Name, address, and bank information of the applicant.
- A brief description of the project.
- An account of the importance of travel for the project.
- An itemised budget.
